The process of submitting the IAHCSMM CIS exam application is straightforward for many,

yet certain challenges can arise, particularly for ?rst-time applicants or those unfamiliar

with certi?cation protocols.

## Veri?cation of Experience

One signi?cant hurdle can be the veri?cation of professional experience. Unlike some

certi?cations that rely solely on self-reported data, IAHCSMM requires documentation or

direct employer veri?cation to con?rm that applicants meet the minimum work experience threshold. This step can delay application approval if employers are slow to respond or if documentation is incomplete.

## Understanding the Exam Fee Structure

The CIS exam fee is a notable consideration for many candidates. While the fee is an investment in one?s professional development, it can be a barrier for some. It is essential for applicants to review the current fee schedule on the IAHCSMM website prior to application to avoid surprises.
